

Mandatory Trainings — Full List and Suggested Order

Document ID: TRN-MAND-009

Owner: Learning and Development (L&D)

Status: Approved

Version: 6.0

Last Updated: 2026-03-01

Applies to: All Employees, All Towers (tower-specific items marked)

1. Company-Wide Mandatory Trainings (Everyone, Within 7 Days of Joining)

1. Code of Conduct and Ethics — 30 minutes, e-learning, annual renewal required.
2. Information Security Awareness — 45 minutes, e-learning, annual renewal required. Covers phishing recognition, password hygiene, and data handling basics.
3. POSH (Prevention of Sexual Harassment) Awareness — 40 minutes, e-learning, annual renewal required, mandatory under Indian law.
4. Data Privacy and GDPR Basics — 30 minutes, e-learning, mandatory if working on any EU client data, recommended for everyone otherwise.
5. Anti-Bribery and Anti-Corruption — 20 minutes, e-learning, annual renewal required.

2. Suggested Order for New Joiners

1. Start with Information Security Awareness on Day 1 — this unlocks full understanding of why certain IT restrictions exist.
2. Code of Conduct and Ethics next, since it pairs with the Confidentiality Policy acknowledgement required in Week 1.
3. POSH Awareness and Anti-Bribery can be completed any time within the 7-day window, in either order.
4. Data Privacy/GDPR last, especially helpful once you know which client/project you're assigned to.

3. Tower-Specific Mandatory Trainings

AuthEnq Tower

1. Authentication Systems Security Fundamentals — required within 14 days of project allocation.
2. Identity and Access Management (IAM) Basics — required within 14 days.

EIS (Enterprise Information Systems) Tower

1. ERP Systems Overview (SAP/Oracle as applicable to assigned client) — required within 14 days.
2. Data Integration and Middleware Security — required within 30 days.

ITS (IT Services) Tower

1. ITIL Foundations — required within 30 days for anyone in service management roles.
2. Infrastructure Security Basics — required within 14 days.

Digital Tower

1. Secure Coding Practices (OWASP Top 10 overview) — required within 14 days for all engineering roles.
2. Cloud Security Fundamentals (AWS/Azure as applicable) — required within 30 days.

Operations Tower

1. Process Compliance and SLA Management — required within 14 days.
2. Client Data Handling for Operations Roles — required within 14 days.

4. Renewal and Expiry

1. Most company-wide trainings expire after 12 months and must be retaken; Learning Portal sends a reminder 30 days before expiry.
2. Expired mandatory trainings can affect your compliance score, which is visible to your manager and may affect access to certain systems.

5. How to Access

1. Log in to the Learning Portal using your company SSO credentials.

2. Navigate to My Trainings > Mandatory to see your personalized list based on tower and role.
3. If a tower-specific training is missing after project allocation, contact your HRBP — assignment sometimes lags allocation by a few days.

6. Suggestion for New Joiners From This Assistant

Based on what similar new joiners typically need, this is a sensible order: Information Security Awareness, then Code of Conduct, then your tower-specific security/fundamentals training, then the remaining company-wide trainings, finishing with Data Privacy/GDPR. Completing security-related trainings early helps the rest of onboarding (access requests, tool usage) make more sense.
